www.sriramachandra.edu.in
Sri Ramachandra Institute of Higher Education and Research (Deemed to be University) was established by Sri Ramachandra Educational and Health Trust in the year 1985 as a private not-for-profit self-financing institution and dedicated to serve the society as a centre of excellence with emphasis on medical education, research and healthcare. The Trust achieved the task of establishing this institution as a ‘Centre of Excellence’ under the leadership of Late Shri. N. R. V. Ramasamy Udayar who was the Founder and Managing Trustee of the Trust and also the first Chancellor of the Deemed University. Shri. V. R. Venkataaachalam is currently the Chancellor of the University and is also the Managing Trustee of the Trust.

Over three decades, Sri Ramachandra Institute of Higher Education and Research (Deemed to be University) has transformed into a full-fledged University with twelve constituent colleges/faculties and have around 152 courses in the healthcare sciences. The refreshing green University campus is spread over 150 acres and houses more than 6580 students with all teaching and training facilities under one roof. The in-campus multi specialty tertiary care hospital facility with 2287 beds provide comprehensive health care.

The National Assessment and Accreditation Council has accredited (Cycle-2) Sri Ramachandra Institute of Higher Education and Research (Deemed to be University) with a ‘A’ Grade with a CGPA of 3.62 on a 4-point scale, the highest to be awarded to a private medical University in India. The Deemed University has been graded as Category I Status by the UGC in 2018. It has also achieved the distinction of being placed on the 33rd rank among all Universities in India by the MHRD NIRF Ranking 2019. The Joint Commission International (JCI) has accredited the University teaching hospital, the first teaching hospital in India to obtain such accreditation from JCI.

The Faculty of Nursing established in 1993 is a part of the SRIHER (DU). It offers graduate, postgraduate and doctoral programmes in nursing. The nursing students are provided with balanced curricular, co-curricular and extra-curricular activities to meet the healthcare needs and challenges. The Faculty of Nursing focuses on research that drives excellence and unsurpassed nursing care strategies. The collaboration with the Universities in UK and USA adds strength to the academic and research areas.

What is INNOVUS 2020?

Innovus-2020, the 1st National Nursing Science Exhibition is conducted with an aim to kindle the spirit of creativity and learning beyond classrooms. Every individual is born with talents. The talent should be unveiled during the student period to grow and progress further. The learning environment is not for information sharing and memorization. It is an opportunity to bring out creativity and critical thinking in learners. Innovus provides a great platform for the future scientists to come into the limelight for being creative and skilled as an inventor/researcher for the growth of the society and mankind.

Nursing science exhibitions in India are rare of a kind and Innovus will pave an opportunity for the nursing students to think more, do more and learn more.

What are the domains?

- Healthcare
- Nursing education
- Social issues
- Technology and application
