

The department of Pharmacology of Sri Ramachandra Medical College & Research Institute organized the 2nd PHARM FEST 2018 on 16th February, 2018 .

Pharm Fest was a multipurpose daylong event designed to explore the students novelty in understanding Dental pharmacology. The academic forum targeted on emerging issues & trends in pharmacotherapy in an innovative way and to understand pharmacology in a simple way .This programme was opened to II year BDS students. Topics ignited the interest of faculties and students. This event was planned to cover the entire Pharmacology, involving their Actions, Therapy, and Treatment of choice & Adverse Drug Reactions in a fun filled way. Events like placard designing, debate, role play, connections and quiz, crystal gazing and dumb charades were interesting innovations to teach the subject of pharmacology. Students loved these learning methodologies, as was evident from the feedbacks provided.

Faculty members from various departments, served as judges for the events.
