

Tirupati IISER, Chennai SRIHER sign MoU

OUR BUREAU

Tirupati: Indian Institute of Science Education and Research (IISER), Tirupati has signed an MoU with Sri Ramachandra Institute of Higher Education and Research (SRIHER), Chennai with the main objective of collaborating and cooperating with each other to enhance the quality of teaching, training and research activities.

IISER Tirupati Director Prof KN Ganesh and Professor of Eminence and Dean (Research) Dr SP Thyagarajan of SRIHER signed and exchanged the MoU at a meeting held in Chennai on Monday. This will also facilitate for exchange of students and researchers of one institution with the other institution. It will provide opportunities for both faculty members and students to use the expertise and facilities available in both institutions through training of students/staff and through seminars, workshops and conferences.

Both the institutes can share clinical samples and know-how and related clinical expertise available at SRIHER with IISER under mutually agreed framework.

Also, research infrastructure and expertise available at IISER can be shared with SRIHER. Both the institutes can jointly publish research papers in reputed international journals. With the MoU they can work jointly for the common research interest at national and international level which includes preparation of research proposals and their implementation.

It supports the exchange of academic and training material including access to library and other digital resources of each other.

SRIHER SIGNS PACT WITH IISER

EXPRESS NEWS SERVICE @ TIRUPATI

SRI Ramachandra Institute of Higher Education and Research (SRIHER), Chennai, and IISER, Tirupati, signed an MoU, on Monday, with the aim to share clinical samples and related clinical expertise available at SRIHER with IISER under mutually agreed framework.

The main objective of the MoU is to collaborate and cooperate with each other in order to enhance the quality of teaching, training and research activities. According to SRIHER director K Ganesh, the move will also facilitate the use of expertise and facilities available in both institutions through training of

students and staff and through exchange of thoughts in brain storming sessions, seminars, workshops and conferences.

The move aims at sharing infrastructure and expertise available at IISER with SRIHER under mutually agreed framework and jointly publish research papers in reputed international jour-

nals and leverage the same by procuring additional collaborations via procuring bio-clusters through extramural funding.

They also aim to work jointly on common research interest at international level. This in addition to the implementation of research proposals as per national health priorities and to facilitate change of academic and training material, including access to other digital resources of IISER. The move also aims at encouraging other activities that both institutions agree to be of mutual benefit, Ganesh explained.
