SRIHER celebrates 6 yrs of ties in patient care

EXPRESS NEWS SERVICE @Chennai

SRI Ramachandra Institute of Higher Education and Research, Chennai Hope Medical Project of Hyundai Motor, Chung Mong-Koo Foundation and Yonsei University Health System, celebrated successful completion of six years of cooperation in patient care and faculty exchange programme, on Friday.

"In the last six years, 1,007 poor patients were treated at Sri Ramachandra Hospital for various ailments and life threatening diseases in several departments, including paediatric oncology, cardiac surgery, ENT, general surgery, orthopaedics and plastic

surgery," a release added.

"The patients were from all over India, including the north east and from neighbouring countries like Sri Lanka, Bangladesh, Myanmar and South Africa. This year, the foundation has pledged \$75,000," the release added.

"The cost of each patient was subsidised by about ₹25,000 with the Sri Ramachandra Hospital providing additional support. Under the faculty exchange programme, five senior faculty members from SRIHER and seven from Yonsei University, visited each other's departments and exchanged latest practices," the release added.
