## **“Biologicals Revolutionise Ortho Treatments”**

Chennai,  
28<sup>th</sup> March 2019

Recent techniques and concepts using natural biological substances like PRP, BMAC, Stem-cells, Adipocytes, Autologous Conditioned Serum, Gene Therapy have revolutionised the management of various painful orthopaedic conditions. This would be discussed at the second Annual Conference of the Indian Biological Orthopaedics Society (IBOS) "IBOS-Live 2019" at Centre for Sports Science, Sri Ramachandra Institute of Higher Education and Research, Porur, Chennai on 29<sup>th</sup> & 30<sup>th</sup> March 2019.

Around 50 international and national medical and industry experts will be sharing their expertise with the delegates from all over India numbering over 300. The conference will have innovative knowledge sharing sessions along with didactic lectures and hands-on workshops. The proceedings of the conference would be made available live over webcasting for the medical practitioners who could not attend the conference in person.
