University Emblem

Description of Emblem:

The emblem of the University has four salient images depicted in it: The red triangle with its apex pointing up, the bow, the arrow and the entwined snakes.

The triangle with the arrow underscores the Mission of the University: viz, to merge the three enduring objectives – Education, Healthcare and Research – represented by its three sides into a harmonized whole and hold it launched boldly up into the future. The arrow in addition, stands for the wand of Hermes (or the staff of Asclepius) and with the two entwined snakes represents the Caduceus, which has been traditionally used as the symbol of the medical profession. Uniquely, the bow here adds dynamism and a further dimension to the theme as it holds the arrow poised with its focus into posterity.

Message by
Shri. N.P.V. Ramasamy Udayar
Founder-Chancellor
(given in the year 1998)

Beloved Student,

It is with a great sense of pleasure and joy that I welcome you to this campus as a student. Our Trust when it was conceived in the year 1985, dedicated this institution to the proposition that it shall reach the heights of excellence in the fields of medical and health related education, research and patient care. Since then we have worked with a great sense of determination and commitment to make this 150 green acres develop as a mini town with all the facilities inside, keeping in mind the ecology of the surroundings. We are aware that this is going to be your home away from your own home for the next several years and it is vital that the campus is healthy for your growth and comfort. I myself have spared no pains to procure everything that is considered essential to accomplish this. Your parents do expect us to provide appropriate facilities for your development during the next several crucial years in your life. Myself and the administrators of this institution will be happy to listen to your suggestions, requests, and complaints and take such actions as necessary to improve the situation. But it is very essential that you keep the communication line open and have no hesitation in approaching us. It is also possible that some of you may have unusual, personal, social and adjustment problems particularly when you are away from your own families for a long time. My faculty, staff, wardens and the Dean of Faculties assure me that they will provide such counselling services as may be necessary in the individual circumstances. Such services will be given entirely on a one on one basis in strict confidentiality. But again it is up to you to seek such help from us when you are in need.

Although you are here primarily in pursuit of good education and qualification, we believe that you should have adequate opportunities for extra curricular activities particularly cultural and sports. We encourage all such activities that will help you develop an all round personality and become an excellent professional.

At this juncture it is important that you become aware of our expectation of you. As much as you have a right to stay and enjoy the privileges in the campus every other student who is here has the right as well. This institution cannot tolerate any student intimidating other students in the form of teasing, ragging or cause any kind of harm to fellow student physically or emotionally. We do not have a place in this institution for such indiscipline and any student who indulges in such activities will be summarily expelled.

Students and parents should also be aware of the recent strict laws that have been enforced by the State Government of Tamil Nadu against any form of ragging inside college campuses. We shall not be responsible for action taken by the Government against offending students. Any student victimized by any other student has no other choice except to report the incident immediately to the Dean of Faculties. It is expected of every student that he will abide by all the rules and regulations of the colleges and the hostel at all times.

Students who have difficulties with the subject are encouraged to directly seek counseling from the Head of the Department concerned. He is further encouraged to contact the administration to obtain necessary help for improvement. As a policy it is demanded of every student that he/she maintains 80% attendance in every subject and also meet the standards required for internal assessment examinations. In the matter of allowing a candidate to appear for examinations, the final authority is the concerned Head of the Department and the Dean of Faculties.

In conclusion, I would like you to note that we are here to make everything that is possible and necessary to give you a good education and experience in your field. It is with this intention that we have made historic alliance with Harvard Medical School also. We want you to utilize all these for your betterment, so that you look back one day and feel proud of your ALMA MATER.

Wishing you the very best in your life,

N.P.V. RAMASAMY UDAYAR

6.3 At the end of the academic year:-

- 6.3.1 At the end of every academic year the Dean/Principal/Director shall send a letter to the parents/guardians of the students who are completing the first year informing them about the law regarding ragging and the punishments, and appealing to them to impress upon their wards to desist from indulging in ragging when they come back at the beginning of the next academic session.
- 6.3.2 At the end of every academic year the Medical College/Institution /University shall form a 'Mentoring Cell' consisting of Mentors for the succeeding academic year. There shall be as many levels or tiers of Mentors as the number of batches in the institution, at the rate of 1 Mentor for 6 freshers and 1 Mentor of a higher level for 6 Mentors of the lower level.

Each batch of freshers should be divided into small groups and each such group shall be assigned to a member of the staff. Such staff member should interact individually with, each member of the group on a daily basis for ascertaining the problems/difficulties if any faced by the fresher in the institution and extending

necessary help.

In the case of freshers admitted to a hostel it shall be the responsibility of the teacher in charge of the group to coordinate with the warden of the hostel and to make surprise visits to the rooms in the hostel where the members of the group are lodged.

6.4 Setting up of Committees and their functions:-

6.4.1 The Anti-Ragging Committee:- Every institution shall have an Anti-Ragging Committee and an Anti -Ragging Squad. All matters of discipline within teaching institutions must be resolved within the campus except those impinging on law and order or breach of peace or public tranquility, all of which should be dealt with under the penal laws of the land

University Monitoring Cell At the level of the University, we recommend that there should be a Monitoring Cell on Ragging, which should coordinate with the affiliated colleges and institutions under its domain. The Cell should call for reports from the Heads of institutions in regard to the activities of the Anti-Ragging Committee, Anti - Ragging Squads, Monitoring Cells at the level of the institution, the compliance with instructions on conducting orientation programmes, counseling sessions, the incidents of ragging, the problems faced by wardens or other officials. It should also keep itself abreast of the decisions of the District level Anti – Ragging Committee. This Monitoring Cell should also review the efforts made by institutions o publicize anti - ragging measures, soliciting of undertaking from parents and students each year to abstain from ragging activities or willingness to be penalized for violations; and should function as the prime mover for initiating action on the part of the appropriate authorities of the university for amending the Statutes or Ordinances or Bye -laws to facilitate the implementation of anti-ragging measures at the level of the institution.

6.5 Other measures:-

6.5.1 The Annexures mentioned in 6.1.4, 6.1.5 and 6.1.7 of these Regulations shall be

furnished at the beginning of each academic year by every student, that is, by freshers as well as seniors.

6.5.2 The Medical College/Institution /University shall arrange for regular and periodic psychological counseling and orientation for students (for freshers separately, as well as jointly with seniors) by professional counselors during the first three months of the new academic year. This shall be done at the institution and department/ course levels. Parents and teachers shall also be involved in such sessions.

6.5.3 Full-time warden shall be appointed as per the eligibility criteria laid down for the post reflecting both the command and control aspects of maintaining discipline, as well as the softer skills of counseling and communicating with the youth outside the class-room situations. Wardens shall be accessible at all hours and shall be provided with mobile phones and the details of their telephone number must be widely publicized. Similarly, the telephone numbers of the other important functionaries - Heads of institutions, faculty members, members of the anti-ragging committees, district and sub-divisional authorities and state authorities where relevant, should also be widely disseminated for the needy to get in touch or seek help in emergencies. The institution shall review and suitably enhance the powers and perquisites of Wardens and authorities involved in curbing the menace of ragging.

Further the institutions shall provide necessary incentives for the post of full-time warden, so as to attract suitable candidates.

6.5.4 Freshers shall be lodged in a separate hostel block, wherever possible, and where such facilities are not available, the college/institution shall ensure that seniors' access to freshers' accommodation is strictly monitored by wardens, security guards and college staff.

As ragging takes place mostly in the hostels after the classes are over in the college, a round the clock vigil against ragging in the hostel premises shall be provided. It is seen, that college canteens and hostel messes are also places where ragging often takes place. The employers/employees of the canteens/mess shall be given necessary instructions to keep strict vigil and to report the incidents of ragging to the college authorities if any.

The security personnel posted in hostels shall be under the direct control of the Wardens and assessed by them.

6.5.5 Private commercially managed lodges and hostels shall be registered with the local police authorities, and this shall be done necessarily on the recommendation of the Head of the institution. Local police, local administration and the institutional authorities shall ensure vigil on incidents that may come within the definition of ragging and shall be responsible for action in the event of ragging in such premises, just as they would be for incidents within the campus. Managements of such private hostels shall be responsible for action in the event of ragging in such premises, just as they would be for incidents within campuses.

6.5.6 Besides registering private hostels as stated above, the towns or cities where educational institutions are located should be apportioned as sectors among faculty members, as is being done by some institutions, so that they could

maintain vigil and report any incidents of ragging outside campuses and en route while 'freshers' commute.

- 6.5.7 The Head of the institution shall take immediate action on receipt of the recommendations of the Ant-Ragging Squad. He/ She shall also take action suo motu if the circumstances so warrant.
- 6.5.8 Freshers who do not report the incidents of ragging either as victims or as witnesses shall also be punished suitably.
- 6.5.9 Anonymous random surveys shall be conducted across the 1st year batch of students (freshers) every fortnight during the first three months of the academic year to verify and cross-check whether the campus is indeed free of ragging or not. The institution may design its own methodology of conducting such surveys.
- 6.5.10 The burden of proof shall lie on the perpetrator of ragging and not on the victim.
- 6.5.11 The institution shall file an FIR with the police / local authorities whenever a case of ragging is reported, but continue with its own enquiry and other measures without waiting for action on the part of the police/ local authorities. Remedial action shall be initiated and completed within the one week of the incident itself.
- 6.5.12 The Migration/Transfer Certificate issued to the student by the Medical College/Institution /University shall have an entry, apart from those relating to general conduct and behaviour, whether the student has been punished for the offence of committing or abetting ragging, or not, as also whether the student has displayed persistent violent or aggressive behaviour or any inclination to harm others.
- 6.5.13 Preventing or acting against ragging shall be the collective responsibility of all levels and sections of authorities or functionaries in the Medical College/Institution /University, including faculty, and not merely that of the specific body/ committee constituted for prevention of ragging.
- 6.5.14 As such the college canteens and hostel messes are also places where ragging often takes place, hence the employers/employees of the canteens/mess shall be given necessary instructions to keep strict vigil and to report the incidents of ragging to the college authorities, if any.

Further access to mobile phones and public phones shall be unrestricted in hostels and campuses, except in class-rooms, seminar halls, library etc. where jammers shall be installed to restrict the use of mobile phones.

6.6 Measures for encouraging healthy interaction between freshers and seniors:-

- 6.6.1 The Medical College/Institution /University shall set up appropriate committees including the course-in-charge, student advisor, Warden and some senior students to actively monitor, promote and regulate healthy interaction between the freshers and senior students.
- 6.6.2 Freshers' welcome parties shall be organized in each department by the senior students and the faculty together soon after admissions, preferably within the first two weeks of the beginning of the academic session, for proper introduction to one another and where the talents of the freshers are brought out properly in the

presence of the faculty, thus helping them to shed their inferiority complex, if any, and remove their inhibitions.

- 6.6.3 The Medical College/Institution /University shall enhance the student-faculty interaction by involving the students in all matters of the institution, except those relating to the actual processes of evaluation and of faculty appointments, so that the students shall feel that they are responsible partners in managing the affairs of the institution and consequently the credit due to the institution for good work/performance is due to them as well.

7. Regulatory Measures

The inspecting/visiting committees of MCI shall cross verify that the medical college/institution has strictly complied with the anti ragging measures and has a blemishless record in terms of there being no incident of ragging during the impending period (i.e. from earlier inspection) or otherwise

The authorities of the institution particularly the Head of the institution, shall be responsible

to ensure that no incident of ragging takes place in the institution. DENTAL COUNCIL OF INDIA

NOTIFICATION

New Delhi, the 31st July, 2009

No. DE-167-2008.—in exercise of the powers conferred by clause (i) of Sub-Section 2 of Section 20 of the Dentists Act, 1948 (16 of 1948) and directives dated 25.3.2009 issued by the Raghvan Committee, constituted by the Hon'ble Supreme Court in its Order dated 16.5.2007 in Special Leave to Appeal (Civil) No.(s) 24295/2004 from the judgement and order dated 24.6.2004 in

WP No. 30845/2003 of the High Court of Kerala at Ernakulam, Dental Council of India, with the previous approval of the Central Government, hereby makes the following Regulations :-

1. **Short title and commencement:-**

(i) These Regulations may be called the DCI Regulations on Curbing the Menace of Ragging in Dental Colleges, 2009.

(ii) They shall come into force from the date of their publication in the Official Gazette.

2. Notwithstanding anything contained in the Dentists Act, 1948 and any of the regulations made thereunder as amended from time to time, it shall be the duty and responsibility of Management/Principal of the Dental Colleges to create a conducive atmosphere for imparting dental education to the UG/PG Dental students undergoing training in such colleges and take all necessary steps to prevent/prohibit/curb ragging of any type in their Dental Colleges to enable students to study the vast UG/PG Dental Course and its various parameters and concepts of dental education in a calm and peaceful atmosphere as the dental education requires grueling studies.

3. **Various Types of Ragging:-**

The Raghvan Committee constituted by the Hon'ble Supreme Court has, inter-alia, mentioned the following types of ragging:-

(i) Ragging has several aspects with, among others, psychological, social, political, economic, cultural, and academic dimensions.

(ii) Any act that prevents, disrupts or disturbs the regular academic activity of a student should be considered with in the academics related aspect of ragging; similarly, exploiting the services of a junior student for completing the academic tasks assigned to an individual or a group of seniors is also an aspect of academics related ragging prevalent in many institutions, particularly in the professional institutions in medicine.

(iii) Any act of financial extortion or forceful expenditure burden put on a junior student by senior students should be considered an aspect of ragging for ragging economic dimensions.

(iv) Any act of physical abuse including all variants of it: sexual abuse, homosexual assaults, stripping, forcing obscene and lewd acts, gestures, causing bodily harm or any other danger to health or person can be put in the category of ragging with criminal dimensions.

(v) Any act or abuse by spoken words, emails, snail-mails, public insults should be considered with in the psychological aspects of ragging. This aspect would also include deriving perverted pleasure, vicarious or sadistic thrill from actively or passively participating in the discomfiture to others; the absence of preparing 'freshers' in the run up to their admission to higher education and life in hostels also can be ascribed as a psychological aspect of ragging – coping skills in interaction with seniors or strangers can be imparted by parents as well. Any act that affects the mental health and self-confidence of students also can be described in terms of the psychological aspect of ragging.

(vi) The political aspect of ragging is apparent from the fact that incidents of ragging are low in institutions which promote democratic participation of students in representation and provide an identity to students to participate in governance and decision making within the institute bodies.

(vii) The human rights perspective of ragging involves the injury caused to the fundamental right to human dignity through humiliation heaped on junior students by seniors; often resulting in the extreme step of suicide by the victims.

4. **Directions of the Hon'ble Supreme Court of India Regarding Curbing the Menace of Ragging:-**

The Raghvan Committee constituted by the Hon'ble Supreme Court in SLP No. 24295/2006 has submitted its detailed report to the Hon'ble Supreme Court on 7.5.2007. The Hon'ble Supreme Court vide its Order dated 16.5.2007 has passed the following Order in the matter:-

"We have perused the Report of the Committee constituted pursuant to this Court's order to suggest remedial measures to tackle with the problem of ragging in educational institutions. An elaborate report has been submitted by the Committee headed by Dr. R.K. Raghavan. According to the Committee, the following factors need to be focused to tackle with the problem:-

- (a) Primary responsibility for curbing ragging rests with academic institutions themselves.
- (b) Ragging adversely impacts the standards of higher education.
- (c) Incentives should be available to institutions for curbing the menace and there should be disincentives for failure to do so.
- (d) Enrolment in academic pursuits or a campus life should not immunize any adult citizen from penal provisions of the laws of the land.
- (e) Ragging needs to be perceived as failure to inculcate human values from the schooling stage.
- (f) Behavioural patterns among students, particularly potential 'raggers', need to be identified.
- (g) Measures against ragging must deter its recurrence.
- (h) Concerted action is required at the level of the school, higher educational institution, district administration, university, State and Central Governments to make any curb effective.
- (i) Media and the Civil Society should be involved in this exercise.

The Committee has made several recommendations. For the present, we feel that the following recommendations should be implemented without any further lapse of time:-

- (1) **The punishment to be meted out has to be exemplary and justifiably harsh to act as a deterrent against recurrence of such incidents.**
- (2) **Every single incident of ragging where the victim or his parent/guardian or the Head of institution is not satisfied with the institutional arrangement for action, a First Information Report must be filed without exception by the institutional authorities with the local police authorities. Any failure on the part of the institutional authority or negligence or deliberate delay in lodging the FIR with the local police shall be construed to be an act of culpable negligence on the part of the institutional authority. If any victim or his parent/guardian of ragging intends to file FIR directly with the police, that will not absolve the institutional authority from the requirement of filing the FIR.**
- (3) **Courts should make an effort to ensure that cases involving ragging are taken up on a priority basis to send the correct message that ragging is not only to be discouraged but also to be dealt with sternness.**

In addition, we direct that the possibility of introducing in the educational curriculum a subject relating to ragging shall be explored by the National Council of Educational Research and Training (NCERT) and the respective State Council of Educational Research and Training (SCERT). This aspect can be included in the teaching of the subjects "Human Rights".

In the prospectus to be issued for admission by educational institutions, it shall be clearly stipulated that in case the applicant for admission is found to have indulged in ragging in the past or if it is noticed later that he has indulged in ragging, admission may be refused or he shall be expelled from the educational institution.

The Central Government and the State Governments shall launch a programme giving wide publicity to the menace of ragging and the consequences which follow in case any student is detected to have been involved in ragging.

Anti-ragging committees and squads shall be forthwith formed by the institutions and it shall be the job of the committee or the squad, as the case may be, to see that the committee's recommendations, more particularly those noted above, are observed without exception and if it is noticed that there is any deviation, the same shall be forthwith brought to the notice of this Court.

The committee constituted pursuant to the order of this Court shall continue to monitor the functioning of the anti-ragging committees and the squads to be formed. They shall also monitor the implementation of the recommendations to which reference has been made above....”

- 9.5.4 Wardens shall be appointed as per the eligibility criteria laid down by UGC or any other competent authority of the concerned University/the State Govt. for the post reflecting both the command and control aspects of maintaining discipline, as well as the softer skills of counseling and communicating with the youth outside the class-room situations. Wardens shall be accessible at all hours and shall be provided with mobile phones. The institution shall review and suitably enhance the powers and perquisites of Wardens and authorities involved in curbing the menace of ragging.
- 9.5.5 The security personnel posted in hostels shall be under the direct control of the Wardens and assessed by them.

- 9.5.9 Anonymous random surveys shall be conducted across the 1st year batch of students (freshers) every fortnight by the institution on during the first three months of the academic year to verify and cross-check whether the campus is indeed free of ragging or not. The institution may design its own methodology of conducting such surveys.
- 9.5.10 The burden of proof shall lie on the perpetrator of ragging and not on the victim.
- 9.5.11 The institution shall file an FIR with the police/local authorities whenever a case of ragging is reported, but continue with its own enquiry and other measures without waiting for action on the part of the police/local authorities. Remedial action shall be initiated and completed within one week of the incident itself.

- 9.5.13 Preventing or acting against ragging shall be the collective responsibility of all levels and sections of authorities or functionaries in the institution, including faculty, and not merely that of the specific body/committee constituted for prevention of ragging.
- 9.5.14 The Heads of Institutions other than universities shall submit weekly reports to the Vice-chancellor of the university the institution is affiliated to or recognized by, during the first three months of new academic year and thereafter each month on the status of compliance with anti-ragging measures.  - 9.6.3 The institution shall enhance the student-faculty interaction by involving the students in all matters of the institution, except those relating to the actual processes of evaluation and of faculty appointments, so that the students shall feel that they are responsible partners in managing the affairs of the institution and consequently the credit due to the institution for good work/performance is due to them as well.
10. **Monitoring Mechanism to ensure compliance:-**
- 10.1 The Dental Council of India shall also have an Anti-Ragging Cell within the Council as an institutional mechanism to provide secretarial support for collection of information and monitoring, and to coordinate with institution level Committees for effective implementation of anti-ragging measures.
 - 10.2 In case the DCI observe that any institution has submitted false/forged report in respect of any case of ragging taken place in their institution or DCI receive any complaint of ragging taken place in any dental institutions, the DCI may depute its fact finding-team to verify the factual position. The TA/DA or other financial implication if any shall be paid, as per rules, by the concerned institution.

DENTAL COUNCIL OF INDIA

ADDENDUM

New Delhi, the 2nd September, 2009

In continuation to Dental Council of India's Notification dated 31st July, 2009 published in issue No. 145 of Gazette of India, Part III, Section 4, Extraordinary on 13th August, 2009.

"Annexure-A

EXTRACTS OF THE JUDGMENT OF HON. SUPREME COURT DATED 8.5.2009 IN CIVIL PETITION NO 887 OF 2009 IN THE MATTER OF UNIVERSITY OF KERALA VS. COUNCIL, PRINCIPALS COLLEGES, KERALA AND OTHERS.

- Every institution should engage or seek the assistance of professional counsellors at the time of admissions to counsel 'freshers' in order to prepare them for the life ahead, particularly for adjusting to the life in hostels.
- On the arrival of senior students after the first week or after the second week as the case may be, further orientation programmes must be scheduled as follows (i) joint sensitization programme and counselling of both 'freshers' and seniors by a professional counsellor; (ii) joint orientation programme of 'freshers' and seniors to be addressed by the Principal/Head of the institution, and the anti-ragging committee; (iii) organisation on a large scale of cultural, sports and other activities to provide a platform for the 'freshers' and seniors to interact in the presence of faculty members; (iv) in the hostel, the warden should address all students; may request two junior colleagues from the college faculty to assist the warden by becoming resident tutors for a temporary duration;
- Every institution must have an Anti-Ragging Committee and an Anti-Ragging Squad. It is essential to have a diverse mix of membership in terms of levels as well as gender in both the Anti-Ragging Squad as well as the Anti-Ragging Committee. The Anti-Ragging Committee at the level of the institution should consist of the representatives of civil and police administration, local media, Non Government Organizations involved in youth activities, representatives of faculty members, representatives of parents, representatives of students belonging to the freshers' category as well as seniors, non-teaching staff and should be headed by the Head of the Institution.
- The Anti Ragging Squad, in contrast, should be a body with vigil, oversight and patrolling functions and should appropriately be a smaller body which should be nominated by the Head of the institution with such representation as considered necessary to keep it mobile, alert and active at all times. The Squad may be called upon to make surprise raids on hostels and other hot spots and should be empowered to inspect places of potential ragging. The Squad should work under the overall guidance of the Anti-Ragging Committee. The Squad should not have any outside representation and should only consist of members belonging to the various sections of the campus community.
- All matters of discipline within teaching institutions, must be resolved within the campus – except those impinging on law and order or breach of peace or public tranquility, all of which should be dealt with under the penal laws of the land.
- At the level of the University, there should be a monitoring Cell on Ragging, which should coordinate with the affiliated colleges and institutions under its domain. The Cell should call for reports from the Heads of institutions in regard to the activities of the Anti-Ragging Committees, Anti-Ragging Squads, Mentoring Cells at the level of the institution, the compliance with instructions on conducting orientation programmes, counselling sessions, the incidents of ragging, the problems faced by wardens or other officials. It should also keep itself abreast of the decisions of the District level Anti-Ragging Committee. This Monitoring Cell should also review the efforts made by institutions to publicize anti-ragging measures, soliciting of undertaking from parents

institutions to publicize anti-ragging measures, soliciting of undertaking from parents and students each year to abstain from ragging activities or willingness to be penalized for violations; and should function as the prime mover for initiating action on the part of the appropriate authorities of the university for amending the Statutes or Ordinances or Bye-laws to facilitate the implementation of anti-ragging measures at the level of the institution.

- In the light of the increasing number of private commercially managed lodges or hostels outside campuses, such hostels and management must be registered with the local police authorities and permission to start such hostels or register them must necessarily be recommended by the Heads of educational institutions. It should be mandatory for both local police, local administration as well the institutional authorities to ensure vigil on incidents that may come within the definition of ragging. Managements of such private hostels should be responsible for non-reporting of cases of ragging in such premises. Local authorities as well as the institutional authorities should be responsible for action in the event of ragging in such premises, just as they would be for incidents within campuses.
- Besides registering private hostels as stated above, the towns or cities where educational institutions are located should be apportioned as sectors among faculty members, so that they could maintain vigil and report any incidents of ragging outside campuses and en route while 'freshers' commute.
- Wardens must be accessible at all hours and therefore it is important that they be available on telephone and other modes of communication. Wardens must be issued mobile phones by the institutions and the details of their telephone number must be widely publicised. Similarly, the telephone numbers of the other important functionaries – Heads of institutions, faculty members, members of the anti-ragging committees, district and sub-divisional authorities and state authorities where relevant, should also be widely disseminated for the needy to get in touch or seek help in emergencies.
- The brochures or booklet/leaflet distributed to each student at the beginning of each academic session for obtaining undertaking not to indulge or abet ragging, shall contain the blueprint of prevention and methods of redress.
- The educational institutions shall ensure that each hostel should have a full time warden who resides within the hostel, or at the very least, in the close vicinity thereof.
- Institutions should provide necessary incentives for the post of full time warden, so as to attract suitable candidates.
- The database shall be created out of affidavits affirmed by each student and his/her parents/guardians, which affidavits shall be stored electronically, and shall contain the details of each student. The data base shall also function as a record of ragging complaints received.
- Penal consequences for the heads of the institutions/ administrators of the institutions who do not take timely steps in the prevention of ragging and punishing those who rag. In addition to penal consequences, departmental enquiries be initiated against such head of the institutions/ member of the administration/ faculty members / non teaching staff who display an apathetic or insensitive attitude towards complaints of ragging.
- Not only the students, but also the faculty who must be sensitized towards the ills of ragging, and the prevention thereof. Non teaching staff, which includes administrative staff, contract employees, security staff etc., have to be regularly sensitized towards the evils and consequences of ragging.
- The Principal or Head of the Institution/Department shall obtain an undertaking from every employee of the institution including teaching and non-teaching members of staff, contract labour employed in the premises either for running canteen or as watch and ward staff or for cleaning or maintenance of the buildings/lawns etc. that he/she would report promptly any case of ragging which comes to his/her notice. A provision shall be made in the service rules for issuing certificates of appreciation to such members of the staff who report ragging which will form part of their service record.

- It is seen, that college canteens and hostel messes are also places where ragging often takes place. The employers/employees of the canteens/mess shall be given necessary instructions to keep strict vigil and to report the incidents of ragging to the college authorities if any.
- Each batch of freshers should be divided into small groups and each such group shall be assigned to a member of the staff. Such staff member should interact individually with, each member of the group on a daily basis for ascertaining the problems/difficulties if any faced by the fresher in the institution and extending necessary help.
- In the case of freshers admitted to a hostel it shall be the responsibility of the teacher in charge of the group to coordinate with the warden of the hostel and to make surprise visits to the rooms in the hostel where the members of the group are lodged.
- Freshers shall be lodged in a separate hostel block, wherever possible, and where such facilities are not available, the college/institution shall ensure that seniors access to freshers accommodation is strictly monitored by wardens, security guards and college staff.
- A ragging takes place mostly in the hostels after the classes are over in the college. A round the clock vigil against ragging in the hostel premises shall be provided.
