

Applications are invited from scientists at the level of Assistant Professor with a minimum of 3 years postdoctoral experience to join the Laboratory of Cancer Biology, under Prof. TS Ganesan, Department of Medical Oncology, at Sri Ramachandra Institute of Higher Education and Research, Chennai. Clinician scientists who are also adequately qualified are encouraged to apply. Scientists whose area of research interest is on genome stability and DNA repair will be preferred. The programme at Dr. Ganesan's laboratory is focused on signal transduction and cancer genetics. The laboratory is well equipped and has access to larger equipment in the shared facility. Applicants should have adequate expertise in molecular and cellular biology and capable of acquiring support through federal grants. The remuneration will be competitive. Applicants with personal support through re-entry fellowships through DBT/DST can also apply. Please write to Dr. Ganesan, with your curriculum vitae and a brief proposal for research (one page). Shortlisted applicants will be called for an interview. Applicants are encouraged to visit the Institute prior to submitting an application. tsganesan@gmail.com. <https://www.sriramachandra.edu.in/university/prof-ts-ganesan>.
