

SPARRC 2021 in Pathology,

Sri Ramachandra Medical College & Research Institute SRIHER

The Department of Pathology, Sri Ramachandra Medical College and Research Institute has organised a 7 day Virtual Sri Ramachandra Pathology Rapid Review course (SPARRC 2021) from 4th January to 10th January 2021 with more than 800 digitalised slides and 780 participants across the country and the world. This was inaugurated by the Honorable Dr. Tamilisai Soundararajan, Governor of Telangana on 4th January 2021. She also launched the SPARRC App and stressed the importance of Pathology in facilitating the right treatment and mentioned that the discipline is currently witnessing an increasing use of advanced digital technologies and Artificial intelligence. Speaking on the momentous occasion Dr P.V Vijayaraghavan, Vice chancellor Sri Ramachandra Institute higher education & Research mentioned that SPARRC is perceived as one of the landmark rapid review programme in Pathology and each year attracts a large number of post graduate students. Dr. S.Anandan, Dean, Sri Ramachandra Medical College introduced the Chief Guest and also said that pathology is a visual speciality which needs intense training. The Guest of honour was Dr.J.A.Jaylal, President, Indian Medical Association, New Delhi. Dr.Sandhya Sundaram, Professor & Head, Pathology and Organizing Chairperson, said that this is one of the first virtual online pathology academic programme of such a massive scale spanning over 7 days and aimed at preparing the post graduates students in Pathology. The SPARRC 2021 is being conducted in full swing with Dr.V.Pavithra, Organising Secretary who is instrumental in coordinating the entire 7 day academic extravaganza. She thanked the dignitaries, communication and pathology team and all the 780 delegates who had joined the meeting,
